## Updates to this manual

<b>Version 1.1</b>	<b>23 November 2023</b>	<b>Section 2.3</b> Errors, Cancellation and Deactivation of digital stamps
--------------------	-------------------------	---

# 1. Overview

This manual aims to provide importers and local manufacturers with:

1. An overview of the Kingdom of Bahrain's excise rules and procedures in regard to the Digital Stamps Scheme.
2. The necessary guidance needed to navigate the Digital Stamps Scheme online portal and the process of ordering and tracking digital stamps from the perspective of an importer of excise products.

This manual is intended to provide general information only and does not represent exhaustive or legally binding guidelines.

For additional information, kindly contact National Bureau for Revenue (NBR) via email [ds@nbr.gov.bh](mailto:ds@nbr.gov.bh)

## 2. Digital Stamps Scheme

The Digital Stamps Scheme is a supervisory system to track excise goods from the manufacturing stage to the point of consumption to limit smuggling instances within the Kingdom of Bahrain, thereby reducing the possibility of Excise evasion.

According to this scheme, a digital stamp is placed to contain security features and codes to prevent the circulation of inauthentic excise goods, as the digital stamps will be scanned at the Kingdom of Bahrain entry points to ensure the authenticity of these goods, as well as the efficient and timely collection of due government revenues.

Moreover, digital stamps will also enable consumers to identify product data by scanning stamps and ensuring the authenticity of such products.

The Digital Stamps Scheme will initially be applied to cigarette products. Later, its applicability will be extended to include Shisha and other tobacco products, such as E-cigarette consumables.

Registration for the Digital Stamps Scheme is required by excise payers and their relevant supply chain organizations who import or locally produce tobacco products from production or point of import to the release of products in the local market of the Kingdom of Bahrain.

Importers and local producers who are required to register for the scheme will receive access to the digital stamps online portal upon completion of the training sessions required to use the portal.

### 2.1. Implementation of key milestones

In accordance with Decision No. (3) for the year 2022 regarding the implementing key milestones of the Digital Stamps Scheme on excise products (cigarette), the implementation key milestones will be as follows:

- **Receiving Digital Stamps orders milestone (11<sup>th</sup> March 2022):**

The system started to receive the digital stamps orders from excise payers registered with the National Bureau for Revenue through an electronic system, while allowing the trade of products that do not contain stamps in the local markets.

- **Imported cigarette products implementation milestone (17<sup>th</sup> July 2022):**

All cigarette products arriving at the Kingdom of Bahrain Customs Affairs for clearance must have the digital stamps placed.

- **Local markets implementation milestone (16<sup>th</sup> October 2022):**

All cigarette products available for sale in the local market must be placed with digital stamps. At this stage, no cigarette products can be sold in the local market without the digital stamps placed.

Also, any cigarette products that do not have digital stamps placed must be returned through the relevant supply chain to be destroyed or moved for sale outside the territory of the Kingdom of Bahrain.

## 2.2. Treatment of products imported to the Kingdom of Bahrain

Taking into consideration the above implementation key milestones, importers are required to follow the below guidelines of digital stamps requirements on imported products to ensure effective implementation of the Digital Stamps Scheme:

### 2.2.1. Cases that require digital stamps to be placed on cigarette products

- Imported cigarette products from the 17<sup>th</sup> of July 2022.
- Cigarette products that are placed for sale at duty-free shops and later sold with the intention of circulating the products in the Kingdom of Bahrain markets for commercial purposes.

### 2.2.2. Cases that do not require digital stamps to be placed on cigarette products

- Imported products not intended to be circulated in the Kingdom of Bahrain markets and are placed in a Customs warehouse under a suspension regime to be re-exported are not required to place a digital stamp.
- Cigarette products that are placed for sale at duty-free shops and later sold for personal use.

### 2.2.3. Procedures that will not be impacted by the implementation of the Digital Stamps Scheme

- Loss and destruction of excisable products under Customs suspension regime.
- Transportation of excisable products from duty-free and warehouses without the intention of circulating the products in the Kingdom of Bahrain market.

## 2.3. Errors, Cancellation and Deactivation of digital stamps

There are specific cases in which digital stamps can be deactivated/canceled. As stated in Decision No. (1) for the year 2022 under Article No. (7) regarding digital stamps for excise products, digital stamps are considered invalid or cancelled in the following cases:

### Cancelled

- Digital stamps are obtained in a manner that is not in accordance with the provision of this decision.
- Digital stamps are not placed on products or activated within 12 months from the digital stamps purchase date.
- Other situations are determined by the NBR.

### Deactivated

- For the cases mentioned above.
- For cases where an error is incurred during the process of activating the digital stamp.
- Digital stamps are damaged in the production process.

- The excisable products on which the digital stamp is placed are exported.
- The excisable products on which the digital stamp is placed are destroyed prior to being traded in Kingdom of Bahrain markets.
- Other situations are determined by the NBR.

To deactivate/cancel digital stamps, a request must be submitted for the NBR's approval through the following email: [excise@nbr.gov.bh](mailto:excise@nbr.gov.bh). Further information might be requested to approve the request.

#### **Error detected while scanning the digital stamps:**

For cases where an error arises while scanning the digital stamps that are placed on imported excisable products at the point of entry, the importer/local manufacturer will be responsible for contacting the NBR via email to [ds@nbr.gov.bh](mailto:ds@nbr.gov.bh) and the NBR will investigate the issue and revert with the necessary action.

#### **Voiding digital stamps:**

For situations determined by NBR to void digital stamps, the importer must inform their manufacturer of the request for the latter to proceed with the procedures. During the process, further information may be requested to approve the request. For additional information or inquiries, kindly contact NBR via email to [ds@nbr.gov.bh](mailto:ds@nbr.gov.bh).

## **2.4. Registration of importers and local manufacturers**

Importers and local manufacturers that are required to be registered for the Digital Stamps Scheme are requested to fill the Digital Stamps Scheme registration form available on the NBR website and share the filled form via email to [ds@nbr.gov.bh](mailto:ds@nbr.gov.bh).

The request will be reviewed by the NBR to ensure correctness of the provided information. Importers and local manufacturers will be contacted through contact details provided in the form to provide further information (if required) and to schedule the training on the Digital Stamps System functions.

User ID and full access to the Digital Stamps System will be granted after the completion of the training.

## 3. Digital Stamps System Functions

### 3.1. Creating an Order

It is the responsibility of the importer to order digital stamps on behalf of international manufacturers to apply to the excisable products. In this process of creating an order for digital stamps, the importer must select the manufacturer and manufacturer's site that will apply the digital stamps to the excisable products the importer has ordered.

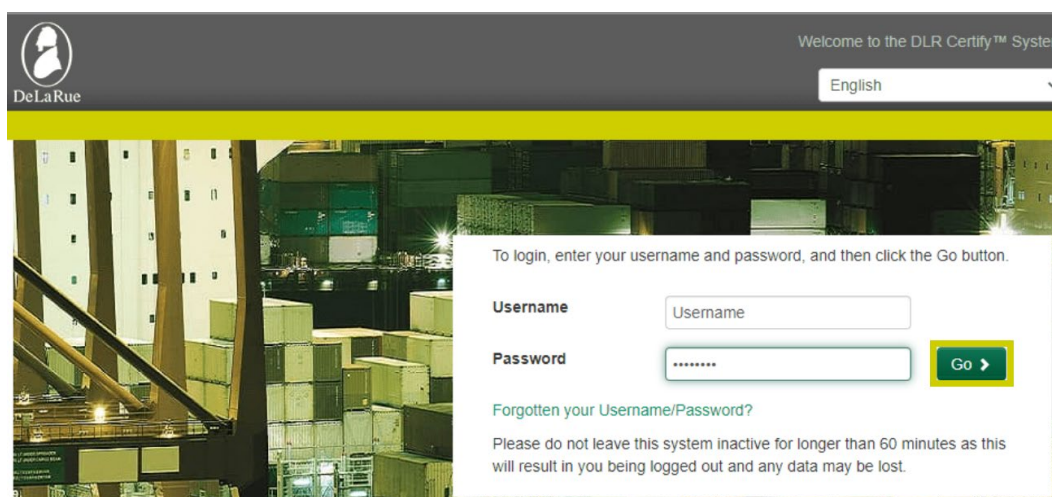

Once an order has been placed, NBR will review the order. Upon approval, the order will be processed and dispatched to the manufacturer.

Please note that when ordering digital stamps for cigarette products this will automatically order the digital codes for the same quantity. Digital codes are unique identifying codes that are printed directly to the cigarette packs by the manufacturer during production.

#### 3.1.1. Steps of Creating an Order

Importers and local manufacturers should access the Digital Stamps System using the following link: [ds.nbr.gov.bh](https://ds.nbr.gov.bh).

Once the training has been completed, login details will be shared. Importers and local manufacturers should log into the Digital Stamps System using their User ID and password.

Welcome to the DLR Certify™ System

Cancellation Reason\*

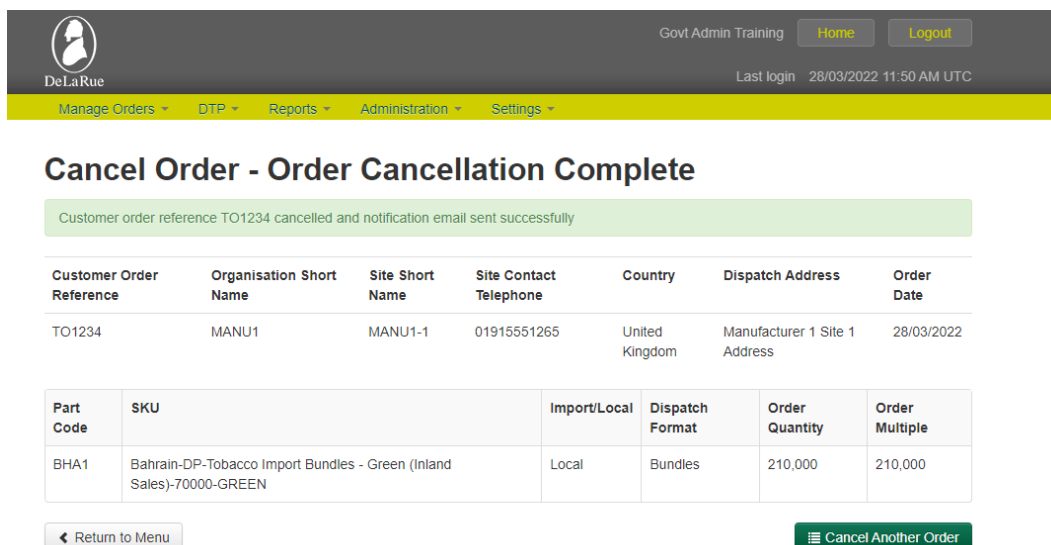

A message will appear to confirm canceling the order.

### Confirm Cancel

✕

Are you sure you want to cancel this order?

Importers and local manufacturers will be redirected to a page confirming the cancellation of the order with a summary of the order canceled. To cancel another order, click on “Cancel Another Order”. To return to the homepage, click on “Return to Menu”.

The screenshot shows a user interface for the Digital Stamps System. At the top, there is a navigation bar with a user profile icon (DeLaRue), 'Govt Admin Training', 'Home', and 'Logout' buttons. Below this is a secondary navigation bar with 'Manage Orders', 'DTP', 'Reports', 'Administration', and 'Settings' dropdown menus. The main content area displays a confirmation message: 'Customer order reference TO1234 cancelled and notification email sent successfully'. Below the message is a table with columns: Customer Order Reference, Organisation Short Name, Site Short Name, Site Contact Telephone, Country, Dispatch Address, and Order Date. The data row shows TO1234, MANU1, MANU1-1, 01915551265, United Kingdom, Manufacturer 1 Site 1 Address, and 28/03/2022. Below this table is another table with columns: Part Code, SKU, Import/Local, Dispatch Format, Order Quantity, and Order Multiple. The data row shows BHA1, Bahrain-DP-Tobacco Import Bundles - Green (Inland Sales)-70000-GREEN, Local, Bundles, 210,000, and 210,000. At the bottom, there are two buttons: 'Return to Menu' and 'Cancel Another Order'.

Customer Order Reference	Organisation Short Name	Site Short Name	Site Contact Telephone	Country	Dispatch Address	Order Date
TO1234	MANU1	MANU1-1	01915551265	United Kingdom	Manufacturer 1 Site 1 Address	28/03/2022

Part Code	SKU	Import/Local	Dispatch Format	Order Quantity	Order Multiple
BHA1	Bahrain-DP-Tobacco Import Bundles - Green (Inland Sales)-70000-GREEN	Local	Bundles	210,000	210,000

### 3.4. Edit and Resubmit a Rejected Order

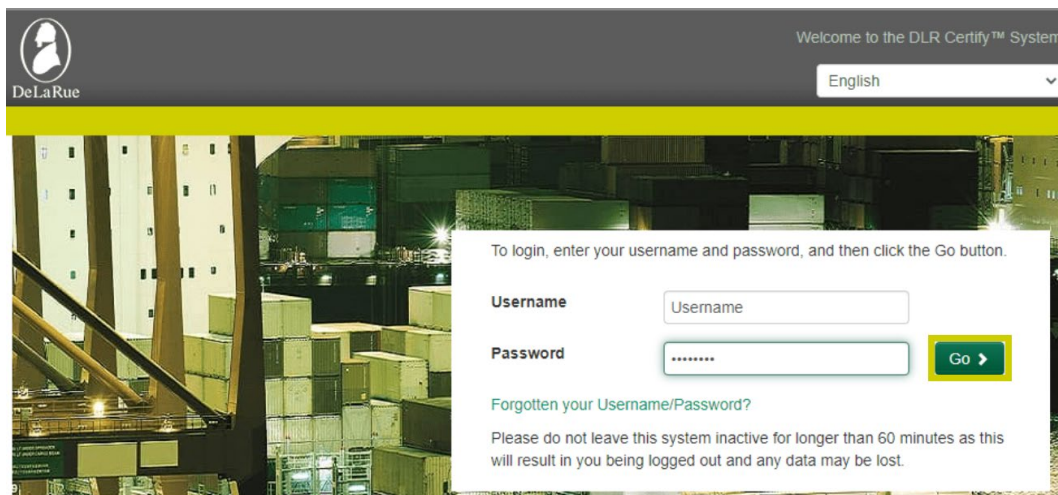

The following process will show how to edit and resubmit a rejected order by the NBR for digital stamps through Digital Stamps System.

The NBR may reject orders placed for digital stamps if an error is noticed within the order or it does not meet the approval criteria. Upon rejection of the order, a notification will be sent to notify the importers and local manufacturers that the placed order has been rejected. To proceed with the order, the importers and local manufactures may resubmit the order by amending the reason it was rejected, or doing nothing, and the order will remain rejected and will not progress.

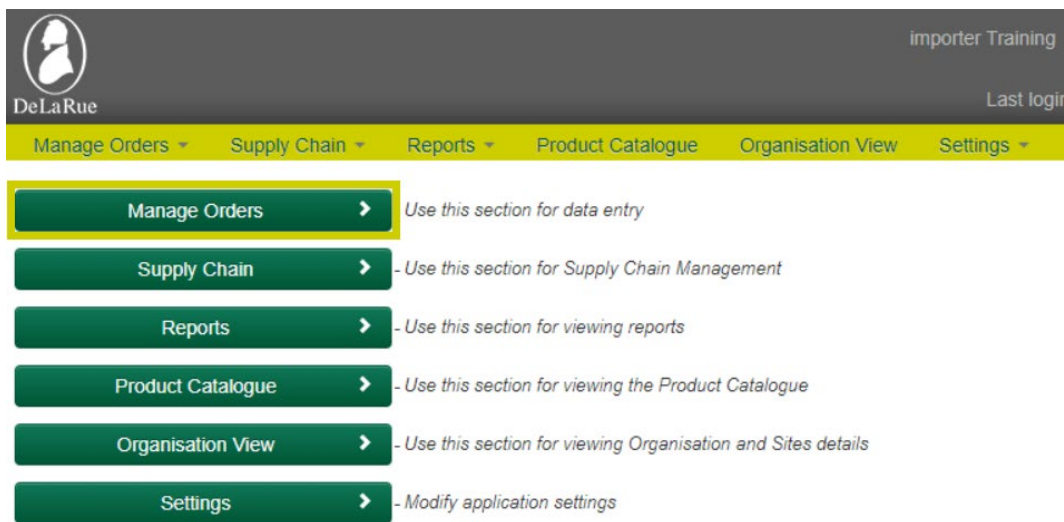

#### 3.4.1. Steps to Edit and Resubmit a Rejected Order

Importers and local manufacturers should access the Digital Stamps System using the following link: [ds.nbr.gov.bh](https://ds.nbr.gov.bh)

Importers and local manufacturers should log into the Digital Stamps System using their User ID and password.

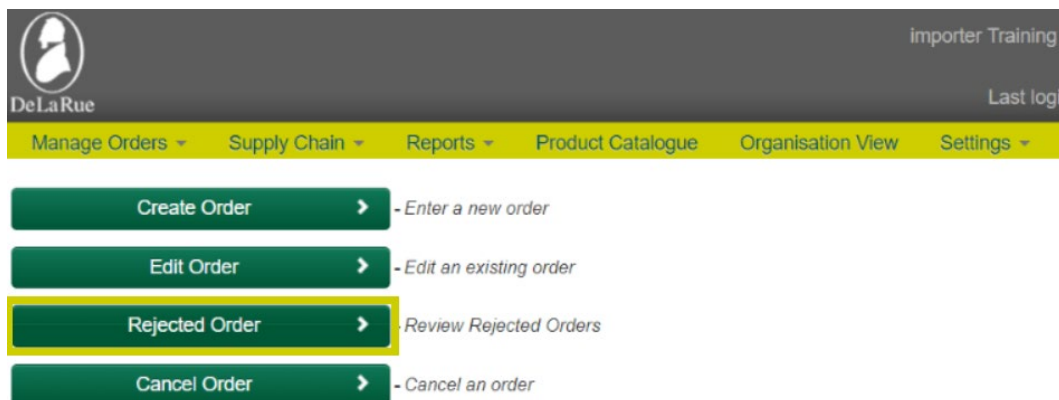

Click on “Manage Orders”.

After that, click on “Customer Orders”.

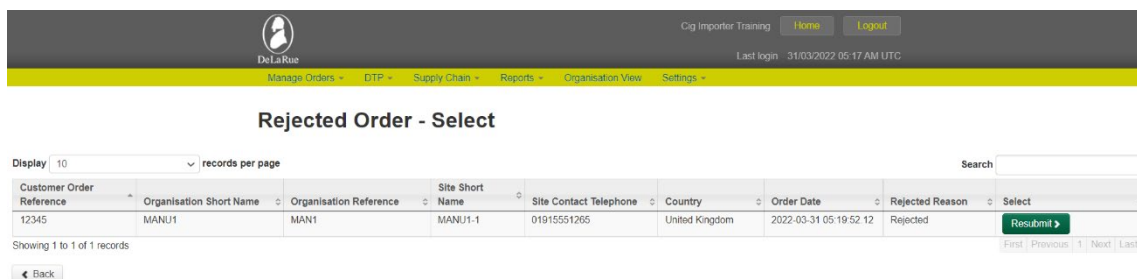

Then, click on “Rejected Order”.

“Rejected Order – Select Order” page will be displayed. This page will show all orders rejected by NBR and have not yet been resubmitted.

Rejection reason will appear in the “Rejected Reason” column. Importers and local manufacturers should view the reason and take note of the reason as it will have to be corrected while editing the order in the next steps. If the Importers and local manufacturers are certain that they wish to resubmit the rejected order, they should click “Resubmit” button available next to the order details.

A confirmation message will appear to confirm proceeding with the resubmission of the order.

A message will be displayed confirming that the order has been resubmitted and sent to the edit order page. Importers and local manufacturers should click “Close”.

Order with customer reference no: '12345' has been Resubmitted successfully and sent for Approval

Close

“Edit Order - Select Order” page will automatically be displayed. This page will show all orders placed by the importers and local manufacturers that are currently awaiting approval including resubmitted rejected orders. Importers and local manufacturers should click on “Select” button available next to the order they wish to edit.

### Edit Order - Select Order

Search Orders:   Q Search

Please select an order to edit. To sort orders please click the heading of the column that you wish to sort by.

### 3.5. Receive Product

The following process will show how to receive products through Digital Stamps System. Importers are responsible for using the Digital Stamps certified system to receive finished products from manufacturers.

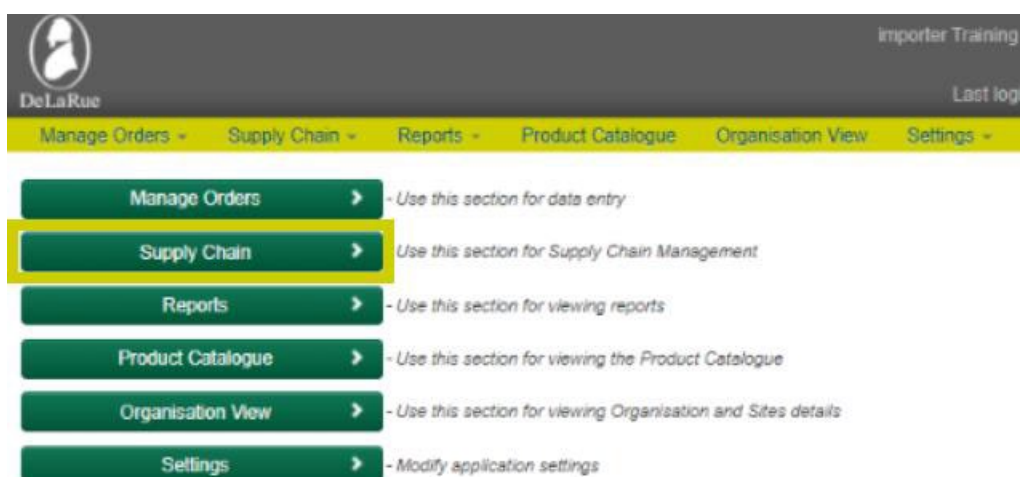

#### 3.5.1. Steps to Receive a Product

Importers should access the Digital Stamps System using the following link: [ds.nbr.gov.bh](https://ds.nbr.gov.bh)

Importers should log into the Digital Stamps System using their User ID and password.

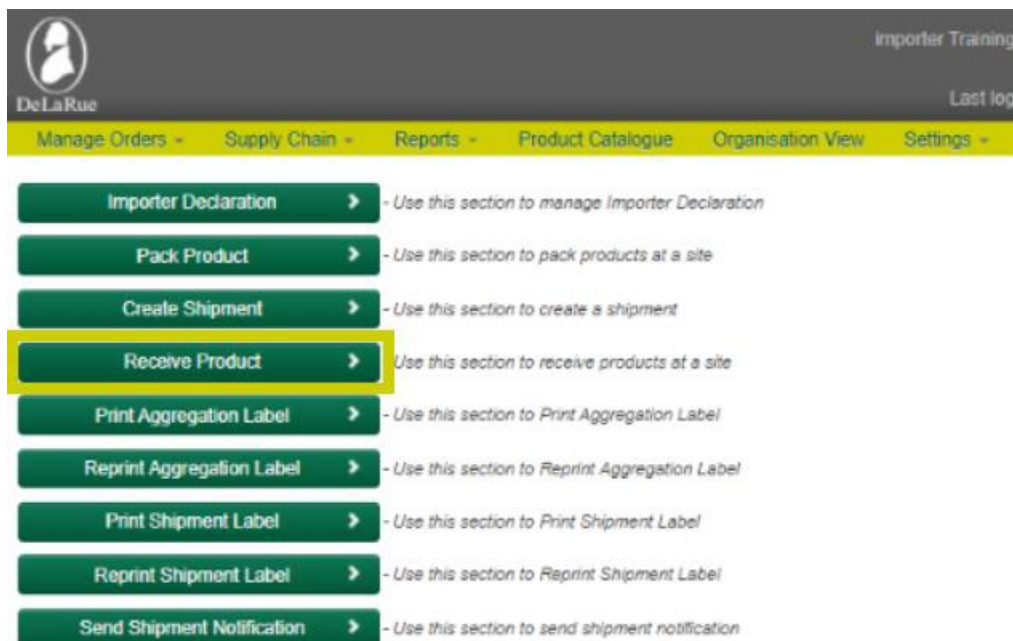

Click on “Supply Chain”.

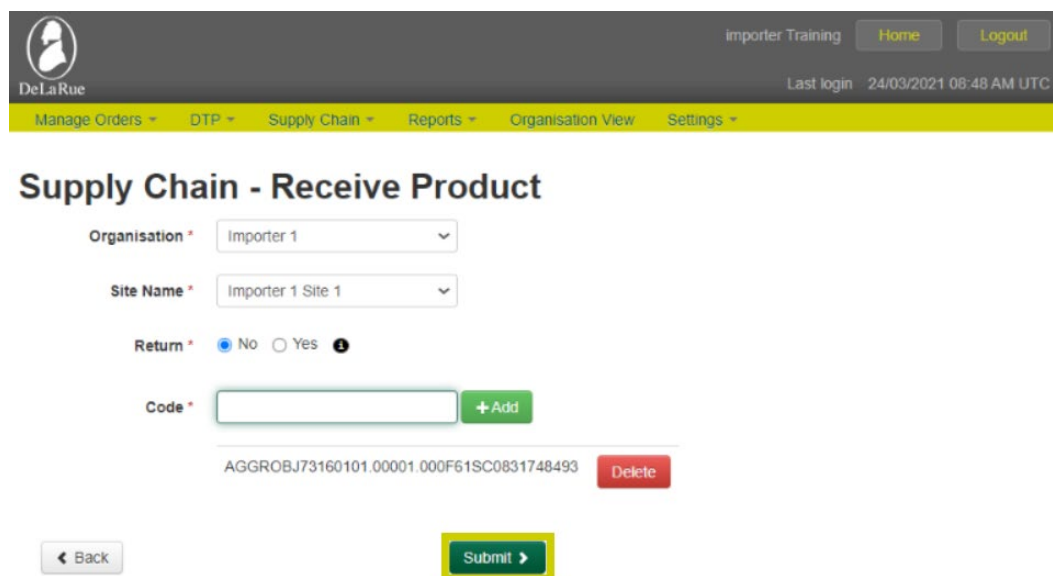

After that, click on “Receive Product”.

“Supply Chain - Receive Product” page will be displayed. Importers may enter codes of products being received and click “Add” to add the product to the list of products to be received. To remove products from being received, Importers should click on “Delete” next to the product code they wish to remove from being received. Once all codes have been added, click on “Submit” to proceed to the next step.

A message will be displayed to confirm proceeding with the process. If all details are correct, Importers should click on “Proceed”.

A confirmation message will be displayed.

## 4. Digital Stamps System Reports

### 4.1. Report - Customer Orders

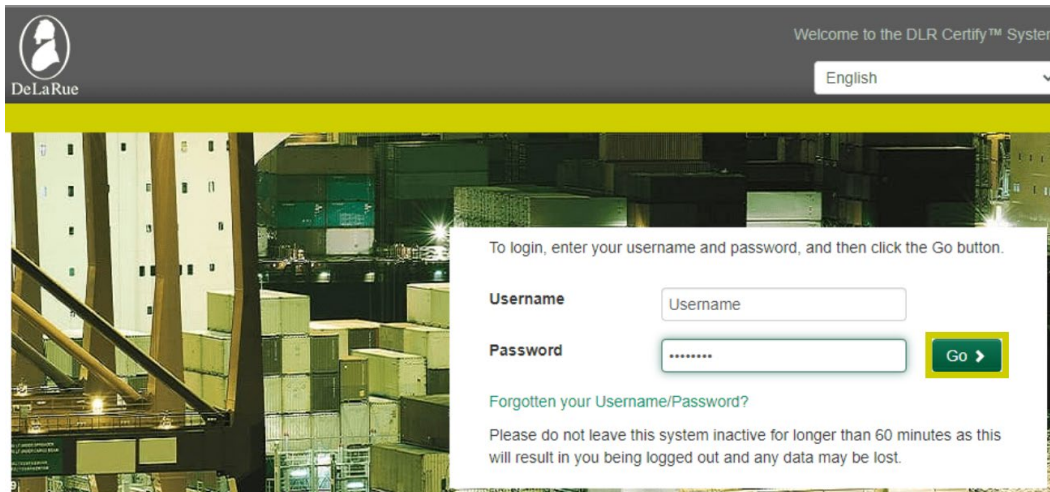

This report enables users to view orders for stamps and the history of the order journey, including the packing history and other process events. It also enables users to view the box details showing the stamps sheets/reels used to fulfil the order.

This report can be run once an order has been placed for stamps and can be run continuously throughout the order journey and will show the status and history of placed orders. The status refers to the stage within the order journey the order is at for example, approved by NBR or received by manufacturer.

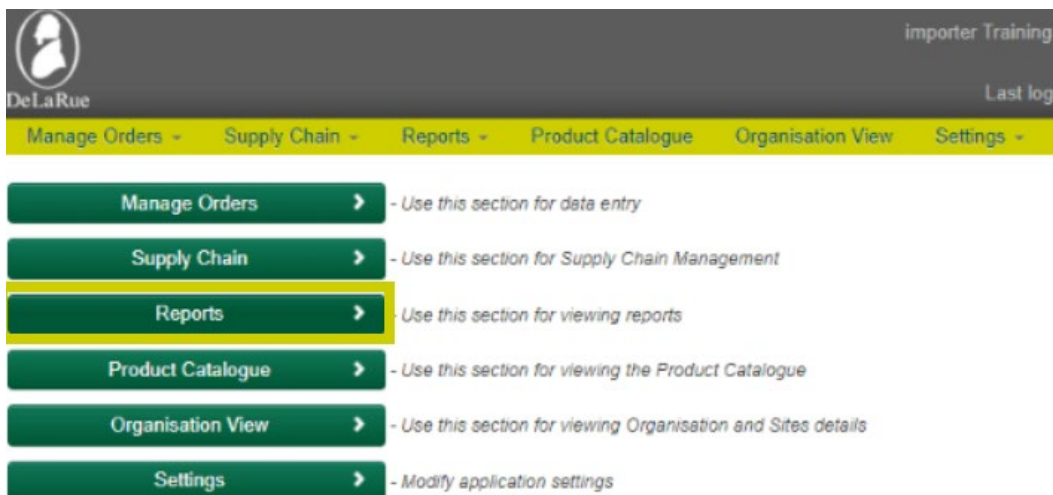

#### 4.1.1. Steps to View Customer Orders Report

Importers and local manufacturers should access the Digital Stamps System using the following link: [ds.nbr.gov.bh](https://ds.nbr.gov.bh)

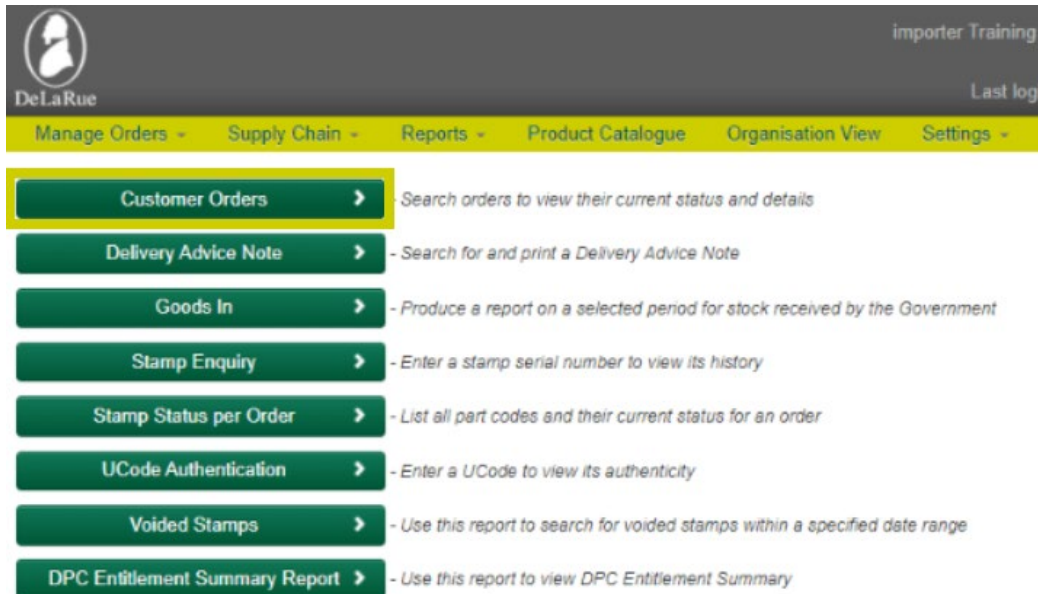

Importers and local manufacturers should log into the Digital Stamps System using their User ID and password.

Click on “Reports”.

Then click on “Customer Orders”.

“Report - Customer Orders” page will be displayed. Importers and local manufacturers can enter a search criteria in the relevant fields to bring back results of desired reports. Part Codes and customer order reference can be used to bring back a specific result. Once the desired search criteria is entered, importers and local manufacturers should click “Submit”.

## Report - Customer Orders

### 4.3. Report - Goods In

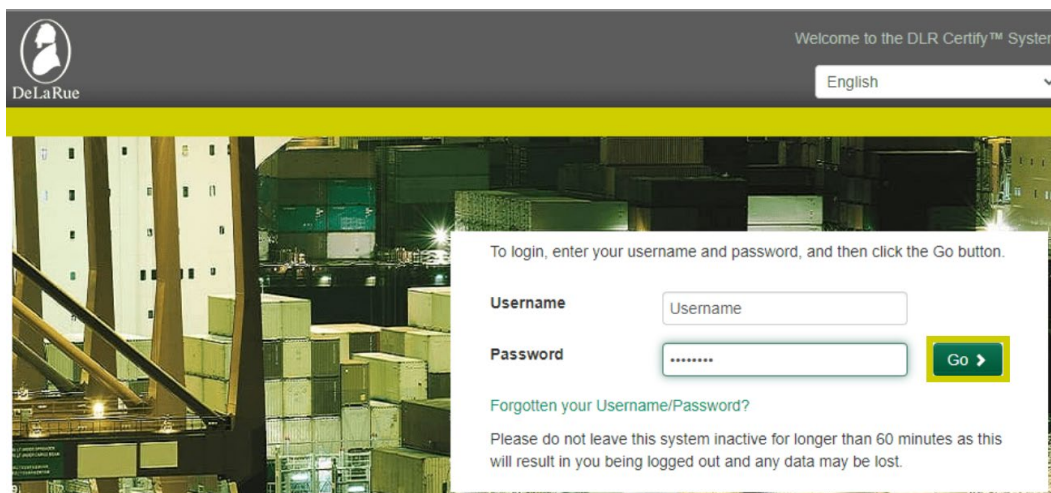

This report enables users to view the stock they have received within a selected period.

This report can be run once the user has completed the Receive Product Process (the process of using the Digital Stamps System to record their receipt of the product shipment).

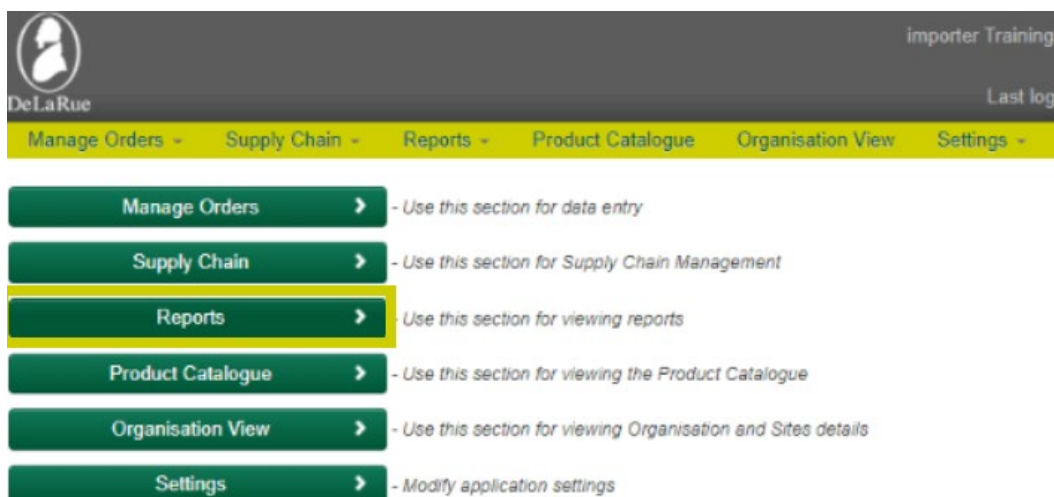

#### 4.3.1. Steps to View Goods in Report

Importers and local manufacturers should access the Digital Stamps System using the following link: [ds.nbr.gov.bh](https://ds.nbr.gov.bh)

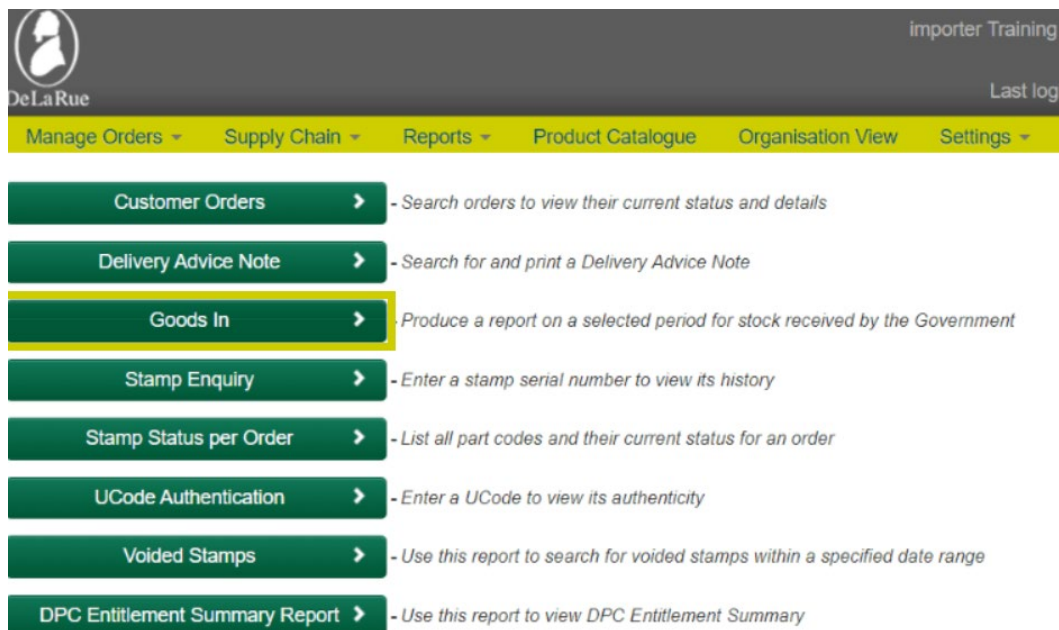

Importers and local manufacturers should log into the Digital Stamps System using their User ID and password.

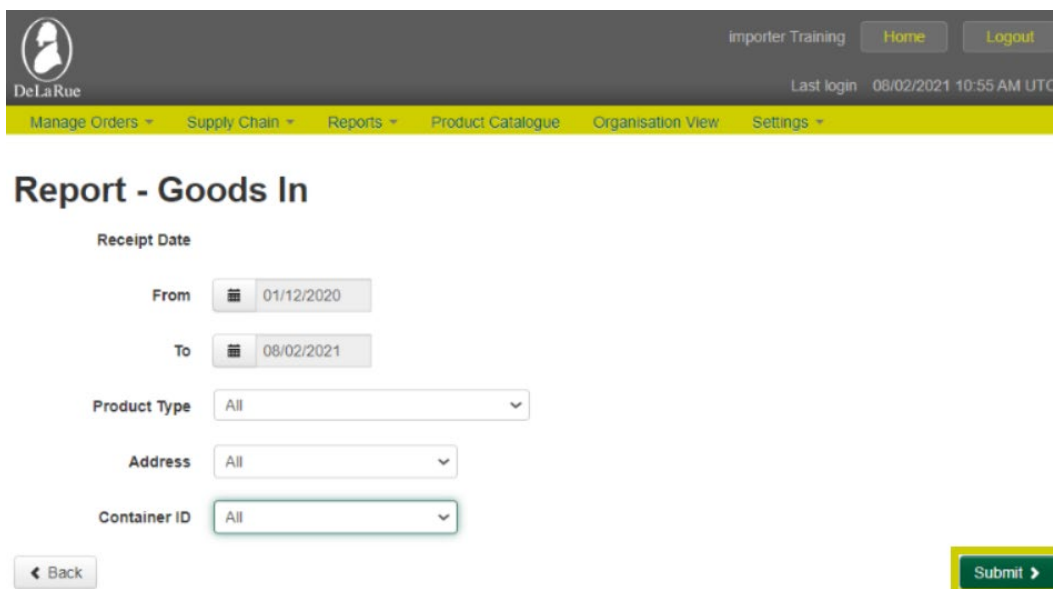

Click on “Reports”.

Then click on “Goods In”.

“Report - Goods In” page will be displayed. Importers and local manufacturers can enter a search criteria in the relevant fields to show results of desired reports. Once the desired search criteria is entered, click “Submit”.

“Report - Goods In” page will be displayed to view all results that met the search criteria. The report can be exported as a word document, excel sheet or printed by selecting the relevant button at the bottom of the page.

Importers and local manufacturers can view the box details of products received by clicking the Number/Serial Range link for the order.
