My Payment Record

A record view all zakat payments previously made and scheduled.

For clarification: You have to log in to use this service.

Zakat Calculator

Zakaty is characterized by two calculators; short and long calculation.

Short Calculator

Calculates money zakat only. Enter the cash amount and zakat amount will be automatically calculated. Method of calculating zakat by the short calculator: All amounts owned by the Zakat payer \div 40. If the money reaches quorum, the amount to be paid by the zakat payer will appear. If not, a notification clarifying that zakat base is less than the quorum will appear.

For example:

$$\text{Money } 9000 \div 40 = 225$$

Application

The screenshot shows the mobile application interface for the Zakat Calculator. At the top, there is a dark blue header with the logo 'زكاتي ZAKATY'. Below the header, the title 'ZaKat Calculator' is displayed, followed by a subtitle: 'Zakat app is a portal dedicated to voluntary zakat for individuals and does not include establishments'. There are two main buttons: 'Short Calculation' (blue) and 'Long Calculation' (light blue). A note below the buttons states: 'The shortcut calculator calculates zakat on cash only'. Below this, there is a 'Cash amount' input field with a 'SAR' unit indicator. The 'Zakat Due' is shown as '0 SAR'. At the bottom, there is a large blue 'Pay' button.

Website

The screenshot shows the website interface for the Zakat Calculator. The title is 'Calculate Zakat' with a subtitle: 'This calculator is a portal dedicated to voluntary zakat for individuals and does not include zakat on establishments'. There are two buttons: 'Short Calculation' (blue) and 'Long Calculation' (light blue). Below the buttons, there is a note: 'Short zakat calculator only money zakat'. There is a 'Money Amount*' input field with a 'SAR' unit indicator. The 'Zakat Due' is shown as '0 SAR'. At the bottom, there are 'Continue' and 'Clear Fields' buttons.

Long Calculator

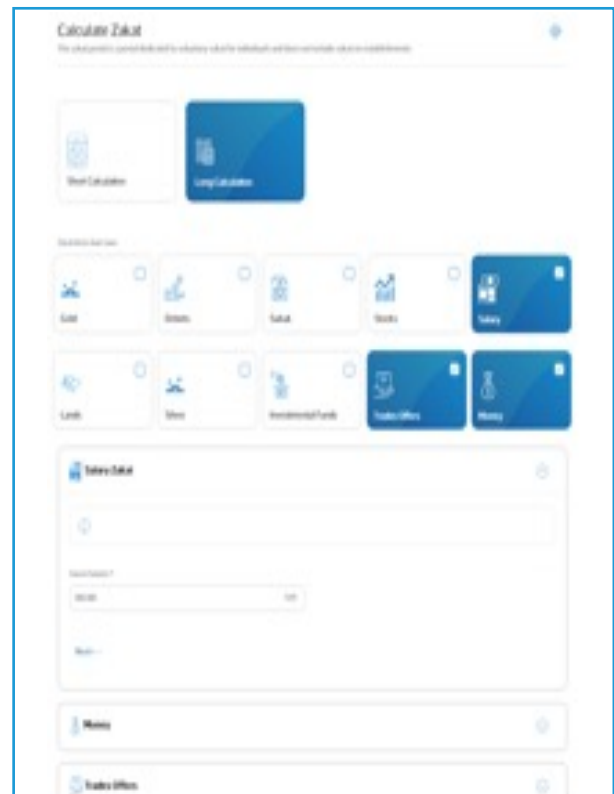

Calculates various zakat items through entering into the calculator and selecting the zakat item required.

You can select more than one item, and click on "Next". The items will be added to the table and calculated in the "Zakat Base".

How to calculate the Quorum?

Method of Gold Zakat Calculation: $\text{Net Gold} = (\text{number of grams} \times \text{karat} \div 24) \times \text{gold price at the day of zakat payment} \div 40$, knowing that gold quorum is 85 g. If the gold reaches the quorum, zakat becomes due, and the amount due will appear. If the gold does not reach the quorum, a notification clarifying that zakat base is less than 85 g.

Method of Silver Zakat Calculation: $\text{Number of grams} \times \text{silver price at the day of zakat payment} \div 40$, knowing that silver quorum is 595 g. If the silver reaches the quorum, zakat becomes due, and the amount due will appear. If the silver does not reach the quorum, a notification clarifying that zakat base is less than 595 g.

Method of Money Zakat Calculation: $\text{All amounts owned by the Zakat payer} \div 40$. If the money reaches quorum, the amount to be paid by the zakat payer will appear. If not, a notification clarifying that zakat base is less than the quorum will appear.

Method of Salary Zakat Calculation: $\text{All salaries remaining at the account within one year} \div 40$. If the salaries reach quorum, the amount to be paid by the zakat payer will appear. If not, a notification clarifying that zakat base is less than the quorum will appear.

Method of Trade Offers Zakat Calculation: $\text{All goods value at the date of zakat payment} \div 40$. If the goods reach quorum, the amount to be paid by the zakat payer will appear. If not, a notification clarifying that zakat base is less than the quorum will appear.

Method of Stock Zakat Calculation: $\text{Number of stocks} \times \text{total market value of stock less the book value} \div 40$. If the stocks reach quorum, the amount to be paid by the zakat payer will appear. If not, a notification clarifying that zakat base is less than the quorum will appear.

Method of Debts Zakat Calculation: Number of debts instruments owned by the zakat payer \times its market value at the date of zakat payment \div 40. If the debts reach quorum, the amount to be paid by the zakat payer will appear. If not, a notification clarifying that zakat base is less than the quorum will appear.

Method of Sukuk Zakat Calculation: Debts value \div 40. If the debts reach quorum, the amount to be paid by the zakat payer will appear. If not, a notification clarifying that zakat base is less than the quorum will appear.

Method of Investment Funds Zakat Calculation: Number of fund units owned by the zakat payer \times its price at the date of zakat payment \div 40. If the units amount reaches quorum, the amount to be paid by the zakat payer will appear. If not, a notification clarifying that zakat base is less than the quorum will appear.

Method of Properties Zakat Calculation: Number of the property \times property market value \div 40. If the properties reach quorum, the amount to be paid by the zakat payer will appear. If not, a notification clarifying that zakat base is less than the quorum will appear.

What about the Zakat spending?

Zakat spending in Zakaty is limited in the Social Insurance. Zakat payer can select the region and case of the beneficiary.

Via Website

You can select the region and case of the beneficiary. If not, the allocation will be made automatically. Select the Beneficiary Region. Select the Beneficiary Case: By numbers of families members - Families most in need of housing - Families of divorced women - Families of drug addicts - Families of prisoners.

The screenshot shows a web form titled "Zakat Spending". Under "Zakat Activities", there is a logo for "Social Security beneficiaries" with the subtitle "Human Resources and Social Development". Below this, there are two dropdown menus: "Choose by Region" and "Choose by case", both currently set to "Unspecified". A small information icon and text at the bottom state: "In the event that the amount allocated for Zakat is completed for the beneficiary chosen by the Zakat payer, the Zakat payer assigns a Zakaty platform to disburse Zakat to Unspecified beneficiary."

Via Application

The screenshot shows a mobile application interface for "ZaKat Spending". It features the same "Social Security beneficiaries" logo and subtitle as the website. Below the logo, there are two dropdown menus: "Select by region" and "Choice by case", both currently set to "Unspecified".

Alerts and Notifications

For clarification: You have to log in to use this service.

Via Website

Alerts

Through this service, you can add an alert to remind you of zakat payment date.
